**Third Thursday
Rounds**

Virtual Third Thursday: Attendee FAQ's

Do I need to create my own Zoom account to attend?

No. You can access the webinar through the link in your confirmation email. Click the link that says, "Click Here to Join" at the time of the lecture.

Is there someone to help if I have trouble accessing the lecture?

Yes. Please reach us at contact@dovelewis.org if you're experiencing difficulties joining the meeting. During the lecture, you can use the "Raise Hand" function and someone will be able to help you.

Is attendance tracked?

Yes. As you register for the Zoom meeting, you will be asked to enter your information. Attendance is tracked for RACE records.

Is this lecture RACE approved?

Yes. This lecture is RACE-Approved for one Interactive-Distance CE credit. You will receive an emailed certificate of attendance within one business day after the event.

Will I be able to ask questions?

Yes. If you have questions during the lecture, please use the Q&A function to submit your question. We will save questions for the end of the lecture.

Will I be able to talk?

No. All attendees will be in listen-only mode. If you have a question or need help, the Q&A or Raise Hand function.

Will the presenter or other attendees be able to see me?

No. All attendees will only have the capability to listen to the presenter.

How will I get my certificate?

You must register by using the Zoom link to prove attendance. You will receive an emailed certificate of attendance within one business day after the event.

Can I record the lecture?

No. The lecture will only be recorded by DoveLewis, and will likely be available on atdove.org at a later date.

For more support, please email contact@dovelewis.org

Standardize Training with Technician Training Kits

Organize onboarding or supplement professional development with workbooks containing skills checklists, a comprehensive exam, and other helpful tools. Track individual progress and build consistency across your team with multiple levels of Technician Training Kits.

What's Inside?

Each kit includes checklists of over 80 skills, so trainers can spend their time focusing on ensuring their team is on track. Skills including but not limited to:

Level One

- Patient preparation for abdominal ultrasound
- Calculating tidal volume for anesthetic procedures
- Use of IV and syringe pumps
- Low-stress and effective patient restraint

Level Two

- Phlebotomy collection in small mammals and exotics
- Performing coagulation tests
- Demonstrating non-traditional intubation techniques
- Understanding local and regional anesthesia

Level Three

- Perform arterial blood sampling
- Understand how to use the modified Glasgow Coma Scale
- Set up ultrasound-guided biopsies
- Understand how to calculate CRIs
- Lead CPR debrief

Shop Training Kits and find more information about our online training content.

POWERED BY DoveLewis

I. Introduction

- A. Personal Information and Qualifications
- B. Typical Veterinary Educational Nutrition Standards
- C. Nutritional Certifications – Ongoing Education and CE

II. Evidence-Based Medicine Triad

- A. Patient Values and Expectations – Importance of Pet Care Information Sources
- B. Patient Values and Expectations – Consumer Concerns
- C. Patient Values and Expectations – Significant U.S. Pet Food Recalls
- D. Patient Values and Expectations – Percentage of Pets Viewed as “Family Members” by Age Demographic
- E. Patient Values and Expectations – Pet Owners Expect High Quality Ingredients
- F. Patient Values and Expectations – Ethical Sourcing and Sustainability

III. Changes in Pet Food Nutrition – Priorities and Focuses

- A. Isolated Nutrients vs Whole Foods – Willow Bark and Aspirin
- B. Isolated Nutrients vs Whole Foods – Whole Grains to Refined Grains, Carrots to Beta Carotene
- C. How Optimal Nutrition May Impact Pet Health
- D. Effects of the Microbiome on Pets

IV. Making Pet Food Recommendations

- A. Percentage of Pet Food Sold in U.S. Made by Four Companies
- B. WSAVA Guidelines
- C. Sample Analysis Case #1: Ol’ Roy Kibble – Manufactured by Mars
- D. Sample Analysis Case #2: Skoki Kibble – Manufactured by FirstMate
- E. Sample Analysis Case #3: Kibbles N’ Bits Kibble – Manufactured by JM Smucker
- F. Snapshot: Vet Practices are Busier Than Ever – Time Crunch per Appointment
- G. What WSAVA Guidelines May Be Lacking
- H. Understanding Ingredients in Pet Food
- I. Ultra-Processed Pet Food – Kibble and Canned: Pros & Cons
- J. Minimally-Processed Pet Foods – Gently Cooked, Air-Dried and Dehydrated: Pros & Cons
- K. Cold-Processed Pet Foods – Freeze-Dried and Raw: Pros & Cons

V. Nutritional Recommendations for Overall Health and Longevity

- A. Health Benefits of Variety and Rotation
- B. How 20% Less Processed Food Can Improve Pet Health
- C. Why Cats Need a Diet with Embodied Moisture
- D. Why Senior Pets Should Be Fed More High Quality Protein
- E. Body Condition Score (BCS) and Longevity in Pets
- F. Sourcing Accessible Nutritional Information for Clients

VI. Summation

- A. Meeting People Where They Are
- B. Nutritional Resources for Veterinary Professionals
- C. Sources of Essential Veterinary Nutritional Information
- D. Contact Information
- E. Resources

WHAT WE BRING

HUMAN STORIES IN VETMED

ATDOVE.ORG'S NEW PODCAST HIGHLIGHTS THE HUMANS BEHIND THE ANIMALS WE CARE FOR

This past year has had a unique impact on the veterinary industry as we all have had to adjust to new protocols, increased patient counts, and more.

Our new podcast, *What We Bring*, offers an inside look at the stories and experiences of people who care for our pets. We hope you'll join us!

ABOUT THE SHOW

When we walk onto the floor for our shift, we all bring with us our own unique stories. *What We Bring* examines the human experiences of those working in veterinary medicine, from the front desk to the O.R. Join DoveLewis Veterinary Well-Being Director Debrah Lee, LCSW, as she explores the real human stories behind the animals we care for.

We hope this podcast will shine a light on the experiences (good and bad) we bring with us to the clinic, and help move us towards greater openness and understanding as an industry. We know that not every lesson can be found in textbooks and training plans, so we're turning to each other to connect, listen, learn, and grow.

WHERE TO FIND US

Click [here](#) to listen to the first episode where we explore imposter syndrome, client compassion, and more with emergency CVT Kara.

MEET HOST DEBRAH LEE, LCSW

Debrah Lee, LCSW, joined the DoveLewis team in 2020 as the Veterinary Well-Being Program Director. Coming from a background in human healthcare, Debrah has long had an interest in how emotionally-demanding medical settings affect both patients and providers. Debrah brings a compassionate presence and deep appreciation for the human experiences that connect us, and she is eager to learn more from veterinary professionals about their experiences within the world of veterinary medicine.

DoveLewis®

Meet Gingko, one
of DoveLewis' first
Neurology patients.

Specialty medicine

for when your patients need special care.
